

## Professional Enclosure Sizing Chart

**Please Note** – This chart is used for reference only, if you have any questions about dimensions and installation information, please email customer service and we can assist.

Enclosure Size are the dimensions on the outside of the enclosure frame itself.

“Finished Screen Size” refers to the inside edge-to-edge dimensions of the impact screen when attached correctly to the enclosure frame.

“Viewable Screen Size” refers to the viewable dimensions of the screen (less the 2” Velcro and grommet border around the impact screen)

For Aspect Ratios, please use the [following link for more information](#)

Standard Enclosure Depth is 4’ 10” (58” on the front of the enclosure frame, with a 10” clearance on the back side of the frame, making the outside frame including the back clearance a total of 68”

Dimensions are height (H) x width (W)
